

# VINAYASENA REDDY KATTA

## PROFESSIONAL SUMMARY

Senior Frontend Engineer with 15+ years of experience building scalable web applications and 6+ years specializing in React.js, Next.js, and TypeScript. Expert in designing frontend architectures, optimizing performance, and developing reusable component systems for large-scale products. Proven ability to lead engineering initiatives, mentor developers, and deliver high-performance, accessible user experiences in Agile environments. Passionate about modern web technologies, developer productivity, and building reliable frontend platforms.

## WORK EXPERIENCE

**Technical Lead / Senior Frontend Developer, 06/2022 to 02/2026**  
**Accion Technologies India Pvt Ltd - Bangalore, India**

- Designed and implemented scalable frontend architecture using React.js and TypeScript, improving application performance and reducing page load times by 40% across devices.
- Built reusable UI component libraries using React, Context API, and Material UI, reducing development time by 25% across dashboards and data visualization features.
- Led frontend architecture decisions and established modular component patterns that enabled faster feature development across multiple product modules.
- Optimized application state management using Redux and Zustand, significantly improving application responsiveness and UI performance.
- Implemented lazy loading, code splitting, and caching strategies to reduce bundle size and improve page load efficiency.
- Collaborated with product managers, designers, and backend teams in Agile sprints to deliver scalable and accessible user interfaces.
- Mentored 6+ junior developers through code reviews, pair programming, and technical guidance, improving onboarding speed and code quality.
- Integrated AI-powered developer tools for code generation, debugging, and documentation, improving developer productivity and reducing repetitive tasks.
- Conducted code reviews and enforced engineering best practices to ensure maintainable and scalable code across the team.
- 

**Product Development Engineer II, 01/2022 to 05/2022**  
**Phenom People India Pvt Ltd - Hyderabad, India**

- Collaborated with cross-functional teams including product managers, designers, and backend engineers to build responsive and accessible user interfaces , enhancing overall user engagement and usability.
- Refactored and optimized existing React components , improving code maintainability, and enabling faster feature development.

## CONTACT

**Address:** Hyderabad, India 500090  
**Phone:** +91 79 8120 5050  
**Email:** vinaysena.dev@gmail.com

## WEBSITES, PORTFOLIOS, PROFILES

- <https://vinaysena.vercel.app/>
- <https://github.com/vinaysenadev>
- <https://linkedin.com/in/vskatta/>

## SKILLS

- **Core Frontend** - JavaScript (ES6+), TypeScript, React.js, Next.js
- **State Management** - Redux, Redux Toolkit, Zustand, Context API
- **Styling** - HTML5, CSS3, Tailwind CSS, Sass
- **Data Fetching** - REST APIs, TanStack Query, Axios, Fetch API
- **UI Libraries** - ShadCN UI, Material UI, Radix UI, PrimeReact
- **Architecture** - SSR, SSG, ISR, Server Components, Component-Driven Architecture
- **Performance Optimization** - Code Splitting, Lazy Loading, Bundle Optimization, Core Web Vitals
- **Backend** (Working Knowledge) - Node.js, Express.js, MongoDB, Prisma
- **Tools**- Webpack, Vite, Babel, Git
- **Practices** -Agile, Scrum, CI/CD, Code Reviews

## LANGUAGES

English, Hindi, Telugu

## EDUCATION

**Bachelor of Science, Computer Science Engineering**  
**AIIT** - Hyderabad

**Principal Software Engineer - React, 05/2021 to 01/2022**

**Accion Labs India Pvt Ltd - Hyderabad, India**

- Led frontend development initiatives and implemented scalable UI architectures for enterprise applications.
- Improved performance and maintainability of React components through code refactoring and architectural improvements.

**Senior UI Developer, 04/2019 to 04/2021**

**Shaster Technologies Pvt Ltd - Hyderabad, India**

- Designed and developed scalable frontend solutions using React.js and TypeScript.
- Implemented responsive and accessible design systems, adhering to WCAG standards.

**Senior Software Consultant, 08/2018 to 04/2019**

**Argha Technology Pvt Ltd - Hyderabad, India**

- Delivered frontend solutions for enterprise clients and improved UI performance and maintainability through optimized React component patterns.

**Technical Lead/Software Developer, 03/2009 to 10/2017**

**Square Information's System India Pvt - Hyderabad, India**

- Built scalable web applications and led development teams across multiple projects.
- Delivered enterprise UI solutions while mentoring developers and improving development processes.

**PROJECTS**

**GridPro | Technical lead/Frontend Developer**

- Designed and developed scalable frontend solutions using React.js and TypeScript.
- Refactored and optimized React components to improve maintainability and accelerate feature delivery.
- Integrated REST APIs to enable dynamic UI rendering and seamless data flow.
- Optimized rendering performance using React.memo, useMemo, and useCallback to reduce unnecessary re-renders.
- Implemented responsive and accessible design systems aligned with WCAG standards.

**CIMS – Crop Insurance Management Dashboard | Technical lead/Frontend Developer**

Developed a responsive dashboard for crop insurance agents to manage policies, track data, and generate reports.

- Integrated RESTful APIs and implemented data fetching with TanStack Query for efficient server-state management.
- Designed interactive dashboards and reporting modules enabling agents to view, filter, and download operational reports.
- Implemented optimized data loading and caching strategies using TanStack Query to improve performance and user experience.

**ACHIEVEMENTS & AWARDS**

- Improved application performance by **30–40% through frontend optimization techniques** including code splitting, lazy loading, and efficient state management.
- **Mentored and coached 6+ junior developers**, improving onboarding efficiency, code quality, and team collaboration.
- Designed and implemented **scalable frontend architecture using React.js and TypeScript**, enabling faster feature delivery across multiple product modules.
- Reduced development time by **25% by building reusable UI component libraries** using React, Context API, and Material UI.
- Recognized with **Myrrh Award at Accion Labs** for dedication and reliability as a key contributor to the WSR Insurance project.
- Received **Customer Appreciation Award for the Centage Project** for technical leadership and research-driven problem solving.
- Awarded **Team Marvel Award at Accion Labs** for collaborative contribution to successful delivery of major milestones for WSR Project

**SIDE PROJECTS**

**Akira – AI Cloud IDE**

- Built an AI-powered cloud IDE that generates and runs full-stack applications directly in the browser using WebContainers and LLM APIs. Implemented prompt-to-app scaffolding, real-time file system, AI-assisted code editing, and live preview using Next.js, Convex, Vercel AI SDK, Clerk, and Tailwind CSS.

**Quantum Academy – School Management Platform**

- Built a full-stack dashboard using Next.js, React, TypeScript, Prisma, and PostgreSQL featuring role-based dashboards, academic, analytics, scheduling tools, and real-time notifications to streamline institutional administration and student engagement.

**PerfLens – AI Web Performance Analyzer**

- Developed an AI-powered web performance analysis tool that converts Lighthouse audit data into actionable optimization insights using Gemini AI.
